

# Saqib Aziz

## Web Developer (react & node)

I am looking for an opportunity as a junior web developer. I have good programming, designing, communication, and multitasking skills. I have in-depth knowledge of responsive web design, REST API, MVC architecture, authentication and authorization, fundamental security, best practices, and modern tools. Passionate to make a career as a web developer and learn new skills.

## Experience

### Oct-Dec 2022 (3-months)

Relymer Labs (Blockchain development company) | E11/2, Islamabad

#### React.js (intern)

Worked with:

- React.js, Next.js and Firebase.
- React Hooks and Redux toolkit.
- Scss, Tailwind css, Chakra UI, Material UI.
- Figma design/wireframe to react code.
- Git, github, netlify and vercel.

### 2021-2022 (3-months)

Tech Falcon (Software company) | Satellite town, Rawalpindi

#### Node.js (intern)

Worked with node.js runtime, express.js framework, ejs templating engine and mongodb database.

Taught html and css to beginners.
